

# Turnover in service industries

2014, February

## Turnover in service industries grew by 2.3 per cent year-on-year in December to February

According to Statistics Finland, turnover in service industries grew by 2.3 per cent in December to February from the corresponding time period of the year before. One year previously, turnover in service industries grew by 0.9 per cent in the corresponding period. Services are here examined exclusive of trade.

### Three months' year-on-year change in turnover in services (TOL 2008)

In the December to February period, turnover developed favourably in all main service industries except for transportation and storage, which went down by 0.5 per cent from the corresponding period of the year before.

Turnover grew fastest in information and communication activities, which went up by 5.0 per cent from the year before. Turnover rose in professional, scientific and technical activities by 4.7 per cent from one

year earlier. Growth was weakest in administrative and support service activities, where turnover went up by just 0.1 per cent, as well as in accommodation and food service activities, whose turnover increased by 1.1 per cent from the corresponding period of the previous year.

### ***Turnover of service industries included in the renewal of business statistics***

Statistics Finland has renewed the production of business statistics. The review concerns more than ten sets of statistics. The renewal harmonises the production of business statistics. A uniform business production system has been adopted in the turnover of service industries in May 2014. Further information on [Changes in these statistics page](#).
