## Changes in the Tax Administration's self-assessed tax data have not so far had an effect on the data of turnover indices

The effects of the changes in the Tax Administration's self-assessed tax data have been analysed in Statistics Finland's turnover indices. Based on the analyses, the changes have thus far not been found to have significant effects on enterprises' VAT reporting in terms of statistics production. More information about this in [Changes in the periodic tax return data used in turnover indices](#).
