

Preliminary population statistics

2013, April

Finland's preliminary population figure 5,432,305 at the end of April

According to Statistics Finland's preliminary data, Finland's population at the end of April was 5,432,305. Over the January to April period, Finland's population increased by 5,650 persons, which is 100 persons less than for the corresponding period of the year before. The main reason for the population increase was migration gain from abroad: the number of immigrants was 4,700 higher than that of emigrants. Natural population growth, or excess of births to deaths, was 950 persons.
