2014, November

## Finland's preliminary population figure 5,472,421 at the end of November

According to Statistics Finland's preliminary data, Finland's population at the end of November was 5,472,421. Over the January to November period, Finland's population increased by 21,150 persons, which is 2,440 persons fewer than for the corresponding period of the year before. The main reason for the population increase was migration gain from abroad: the number of immigrants was 15,470 higher than that of emigrants. Natural population growth, or excess of births to deaths, was 5,680 persons.

Population increase by month 2012–2014\*

According to the preliminary statistics for the January to November period, 28,800 persons immigrated to Finland from abroad and 13,330 persons emigrated from Finland.
